Ford 5.4 Triton V8 Engine Problems and Reliability. Like Ford's 4.6L V8s, the Modular 5.4L Triton engine has similar common problems for their engine family, which included blowing spark plugs and spark plug threads stripping (1997-2003 model years), stuck spark plugs due to a gap between the plug and the cylinder head which gets filled with carbon deposits (typical for 2004+ model years), and ...

~~Ford 5.4L Triton V8 Engine specs, problems, reliability - - -~~

A few common problems were associated with the 3.0L Ford V6. In its early years the engine was known to have leaking head gaskets. The normal heating and cooling of the engine block would cause the gaskets to fail, which would in turn cause coolant to be sucked into the combustion chambers. This condition would cause severe engine failure if it was not caught immediately.
