When the Indian auto manufacturer Tata Motors bought the iconic Jaguar and Land Rover brands - complementing the Nano, its own innovative \$2,500 car - it opened up a new chapter in India's economic story. In the coming years, such Indian multinationals as Bharat Forge, Hindalco, Infosys, Mahindra, and Suzlon will increasingly be making acquisitions and building their brands in Western markets. Never heard of them? Then read this book. India's Global Powerhouses introduces you to the India's preeminent global companies and explains how they differ from their international rivals. The book profiles India's pioneering multinationals in detail, describing their transformation from leading domestic players to evolving global giants, as well as their unique approaches to globalization. Every manager should understand the histories and the business trajectories of these prospective competitors, collaborators, and customers--whose names will soon be as familiar to us as Honda, Lenovo, and Samsung.

The book is designed to become a valid source of information to assist the student both in and out of the classroom to attain his or her objective. the structure of the text book is as follows: Chapter 1 is an introduction to the book, covering the basic information on automobiles. Chapter 2 deals with engines and their auxiliary units. Chapters 3-10 cover several aspects of design of automobile components - SI system, background mathematics and advice on problem solving, particularly exam questions. Chapters 11-15 cover essential theory part of support system for vehicles. Numerous designs and fully worked problems are provided at the end of the chapter. It is expected that as the student works through the examples and problems, he or she will develop a greater understanding of the mathematics required for engineering. To help the student develop a sound grasp of the principles covered there are many diagrams, notes and applications as an aid to develop knowledge and facilitate understanding.

MUMBAI DREAMS is the story of six unique destinies in India's maximum city - two ambitious young men from the foothills of the Himalayas and ordinary police constable an aspiring actress an ageing diva and a superstar. As some journey to glorious futures and others into decline, their lives get intertwined with each other and with the great city they have and their home.Those who get ahead are those who dare to dream. But high ambition can also lead to great danger - and, sometimes, untimely death. #v6spublishers
