In this companion to his best-selling book, Singleton presents first-person vignettes and a detailed case study showing educators how to usher in courageous conversations to ignite systemic transformation.

This book presents thirty-one accounts by final-year pre-service teachers, providing guidance and insights for less advanced teacher education students, and illustrating the use of life history and narrative stories as methods for pre-service teachers to explore educational issues in classroom practice. This life-history approach identifies those political, economic, and social forces that have impinged on the individual at different points in their life and contributed to the process of changing their identities. These stories are not written by established specialists in the areas they deal with, but instead by novice teachers at the beginning of their paths towards mastering the intricacies of teaching and learning in school settings. As such the book provides a mentoring framework and a means of helping pre-service teachers share their valuable experiences and insights into aspects such as how to manage practicum requirements. It helps establish a supportive relationship among pre-service teachers, providing them with access to valuable peer experiences. In addition it helps pre-service teachers make sense of their own practicum experiences and reflect on their own beliefs and professional judgement to develop their approaches and solve problems in their own classroom practice.

Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

offering food, shelter, and friendship. In the days that followed, cultures clashed and nerves ran high, but uneasiness turned into trust, music soared into the night, and gratitude grew into enduring friendships. *Come From Away: Welcome to the Rock* is the ultimate companion piece to Irene Sankoff and David Hein's smash-hit musical based on that extraordinary experience. Featuring the complete book and lyrics for the first time in print, a foreword by Canadian Prime Minister Justin Trudeau, and exclusive photos of the company and physical production, this essential companion also includes original interviews with passengers, Gander residents, and the actors who portray them. The narrative by theater historian Laurence Maslon details the events of that memorable and challenging week and also traces the musical's development from the ten-year reunion of residents and airline passengers in Gander, where the idea for the musical was born, to the global phenomenon it is today. *Come From Away: Welcome to the Rock* gives an unprecedented look behind the curtain and demonstrates why the story has touched so many so deeply: Because we come from everywhere, we all come from away.
