More than a decade after LBJ left office, researchers began to open up the Johnson administration as an important area of scholarly study. Exploring the Johnson Years is an invaluable introduction to that administration and to the LBJ Library's more than thirty million separate documents. The contributors cover every major aspect of the Johnson presidency, from Vietnam (George C. Herring) to the War on Poverty (Mark I. Gelfand), including coverage of Latin American policy (Walter LaFeber), education (Hugh Davis Graham), civil rights (Steven F. Lawson), the nature of the White House staff (Larry Berman), and Johnson's stormy relationship with the media (David Culbert). The essays illuminate some of the most important files and show how they can be used to further historical understanding of the Johnson years. As a result, scholars who plan to use the library will have a useful guide before they begin, while general readers will be able to discover the ways in which the library's holdings relate to the existing body of literature on the Johnson administration.

From #1 New York Times bestselling author J.R. Ward comes an unforgettable story of passion and vengeance in the world of the Black Dagger Brotherhood. When Ahmare's brother is abducted, there is nothing she won't do to get him back safely. She is unprepared, however, for the lengths she will have to go to save his life. Paired with a dangerous but enticing prisoner, she embarks on an odyssey into another world. Duran, betrayed by his father, imprisoned in a dungeon for decades, has survived only because of his thirst for vengeance. He has been biding his time to escape and is shocked to find an unlikely and temporary freedom in the form of a determined young female. Battling against deadly forces and facing unforeseen peril, the pair are in a race to save Ahmare's brother. As time runs out, and the unthinkable looms, even true love may not be enough to carry them through.

The Hillman Imp divides opinions perhaps more sharply than any other car in British motoring history. You either love it or hate it. The Rootes Group's answer to the BMC Mini, the Hillman Imp was built in a purpose-built factory in Linwood, Glasgow, and it was hoped that it represented the beginning of a new era for the Scottish motor industry. With the help of interviews with key members of the design team, and unprecedented research of official papers, the story of the design and development of this quirky little car is set against the complex commercial and political intrigue that surrounded it, making this book not just the story of a car but a fascinating insight into an industry in crisis.

There are an estimated 600,000,000 passenger cars in the world, and that number is increasing every day. So too is Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint. It's official: we have paved paradise and put up a parking lot. In ReThinking a Lot, Eran Ben-Joseph shares a different vision for parking's future. Parking lots, he writes, are ripe for transformation. After all, their design and function has not been rethought since the 1950s. With this book, Ben-Joseph pushes the parking lot into the twenty-first century. Ben-Joseph shows that parking lots can be aesthetically pleasing, environmentally and architecturally responsible, and used for something other than car storage. He introduces us to some of the many alternative and nonparking purposes that parking lots have served -- from RV campgrounds to stages for "Shakespeare in the Parking Lot." He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas. For all the acreage they cover, parking lots have received scant attention. It's time to change that; it's time to rethink the lot.
