This briefing looks at what data and statistics are available about child deaths due to abuse or neglect. Official measures are likely to be underestimations of the number of children who die due to abuse or neglect for a number of reasons, including: cause of death remaining unknown or unexplained. However, based on the number of child homicides recorded by the police each year, we know that, on average, at least one child is killed a week in the UK.

Child deaths due to abuse or neglect | NSPCC Learning

Trauma caused by shaking, or shaken baby syndrome, is one of the most common causes of death in child abuse cases. In the United States, it is one of the more common causes of permanent mental disability. It is common in small children younger than 3 years of age.
