Destined To Die Young. A fascinating new book, 'Destined to Die Young' is the definitive examination of why the world lost Elvis Presley on August 16, 1977, when he was only forty-two years old. Author Sally Hoedel has painstakingly researched the subject and offers factual and scientific data - plus never-before-published information she gained by interviewing people who personally knew Elvis - to support her claim that Elvis Presley was never going to live a long life.
