Dfd Of Employee Training Management System Documentation
Employee training and development refers to the continued efforts of a company to boost the performance Corporate Performance Management (CPM) Corporate Performance Management (CPM) refers to a tool used by corporations to formulate organizational strategies through prescribed methodologies of its employees. Companies aim to train and develop employees by using an array of educational methods and programs.

Employee Training and Development - Overview, Benefits and ...
When promotion and career growth becomes important. Training is given so that employees are prepared to share the responsibilities of the higher level job. The benefits of training can be summed up as: Improves morale of employees-Training helps the employee to get job security and job satisfaction. The more satisfied the employee is and the greater is his morale, the more he will contribute to organizational success and the lesser will be employee absenteeism and turnover.

Training of Employees - Need and Importance of Training
Employee training impacts a company 's immediate needs by teaching new hires how to do job-related tasks. The more technical work that can be carried out, the more bandwidth a company has to sell their services. Employee development serves as a long term growth tool to enhance employees ' skillset, thereby creating a more valuable workforce. Well developed employees who are trained to lead will support the company culture and impact future goals.
