Drilling

During operations on a drilling or producing well, a sequence of events may require tubing, casing, or drill pipe to be run or pulled while annular pressure is contained by blowout preventers; such practice is called “stripping”.

Stripping is normally considered an

Online Library

Drilling

Emergency procedure to maintain well control; however, plans for certain drilling, completion, or well work operations may include stripping to eliminate the necessity of loading the well with fluid.

individual to be awarded the qualification, so you can work as a competent land driller within the construction industry.

Level 2 NVQ in Land Drilling Operations - Land Driller ...

Drilling is the operation of producing a

Online Library

Drilling

cylindrical hole by removing metal from the rotating edge of a cutting tool called the drill. The drilling is one of the simplest methods of producing a hole. Before drilling the centre of the hole is located on the workpiece by drawing two lines at right angles to each other and then a centre
