This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Think you know Shakespeare? Think again . . . Was a real skull used in the first performance of Hamlet? Were Shakespeare's plays Elizabethan blockbusters? How much do we really know about the playwright's life? And what of his notorious relationship with his wife? Exploring and exploding 30 popular myths about the great playwright, this illuminating new book evaluates all the evidence to show how historical material—or its absence—can be interpreted and misinterpreted, and what this reveals about our own personal investment in the stories we tell.

For the first time in its modern history the entire Balkan Peninsula has the opportunity to co-exist under one security and developmental umbrella combining NATO and the European Union (EU). Unfortunately, European and American leaders have been unable to complete such a unique historic vision, while the progress of several Western Balkan countries continues to be undermined by a plethora of political, social, economic, ethnic, and national disputes. This monograph focuses on the escalating security challenges facing the Western Balkans, assesses the shortcomings and deficiencies of current international engagement, considers future prospects for U.S. military involvement, and offers recommendations for curtailing conflict and promoting the region's international institutional integration. In particular, to prevent the future deployment of U.S. forces, more comprehensive strategic intelligence gathering is needed, together with the identification of local and foreign political actors promoting instability, early warning signals regarding impending conflicts, and a commitment to incorporate all countries in the region into NATO and the EU.

Les Demoiselles d'Avignon: five young women that changed modern art forever. Faces seen simultaneously from the front and in profile, angular bodies whose once voluptuous feminine forms disappear behind asymmetric lines - with this work, Picasso revolutionised the entire history of painting. Cubism was thus born in 1907. Transforming natural forms into cylinders and cubes, painters like Juan Gris and Robert Delaunay, led by Braque and Picasso, imposed a new vision upon the world that was in total opposition to the principles of the Impressionists. Largely diffused in Europe, Cubism developed rapidly in successive phases that brought art history to all the richness of the 20th century: from the futurism of Boccioni to the abstraction of Kandinsky, from the suprematism of Malevich to the constructivism of Tatlin. Linking the core text of Guillaume Apollinaire with the studies of Dr. Dorothea Eimert, this work offers a new interpretation of modernity's crucial moment, and permits the reader to rediscover, through their biographies, the principal representatives of the movement.

"Lucrezia Borgia (Italian pronunciation: [lukretʃʒa brdʒi ʔfʊ292]a; Catalan: Lucreàcia; Catalan pronunciation: [lukrsi]; 18 April 1480 ? 24 June 1519) was the daughter of Pope Alexander VI, and Vannozza dei Cattanei. Her brothers included Cesare Borgia, Giovanni Borgia, and Gioffre Borgia. Lucrezia's family later came to epitomize the ruthless Machiavellian politics and sexual corruption alleged to be characteristic of the Renaissance Papacy. Lucrezia was cast as a femme fatale, a role she has been portrayed as in many artworks, novels, and films. Very little is known of Lucrezia, and the extent of her complicity in the political machinations of her father and brothers is unclear. They certainly arranged several marriages for her to important or powerful men in order to advance their own political ambitions. Lucrezia was married to Giovanni Sforza (Lord of Pesaro), Alfonso of Aragon (Duke of Bisceglie), and Alfonso I d'Este (Duke of Ferrara)."–Wikipedia.

Frei Otto, awarded the Royal Gold Medal 2006 by the Royal Institute of British Architects, is one of Germany's most innovative architects in the second half of the 20th century. He taught at the MIT in Cambridge before founding an internationally renowned Institute for Lightweight Structures in 1964. Frei Otto's systematic research of a lightweight and adaptable construction, his early dedication to environment and ecology as well as his impressive personality turned him into an outstanding architect. His works offer an inexhaustible source of inspiration and reflection. Amongst his main works are the German Pavilion for the 1967 World Exhibition in Montreal, the roof for the Munich Olympic Stadium (in collaboration with G. Behnisch), the IBAs's ecological houses in 1985 in Berlin, numerous tent-like constructions for Saudi Arabia, as well as temporary tent and membrane structures, including one for the Pink Floyd tour in 1978. He also collaborated on the Japanese Pavilion for the EXPO 2000 in Hanover, and the project for Stuttgart's main railway station. In this volume, prominent authors analyse and discuss the key aspects of Frei Otto's work. In addition it contains an extensive and detailed catalogue of over 200 buildings and projects dating from the years 1951&2004.

Il nostro Partito Politico Futurista è nato naturalmente dalla grande corrente spirituale del movimento artistico futurista.Unico nella storia il nostro Partito è stato concepito, voluto e attuato da un gruppo di artisti poeti, pittori, musicisti, ecc.: che, carichi di genio e di coraggio ormai provati, dopo avere svecchiato brutalmente e modernizzato l'arte italiana sono giunti logicamente ad una concezione di politica assolutamente sgombra di retorica, violentemente italiana e violentemente rivoluzionaria, libera, dinamica e armata di metodi assolutamente pratici.Poichè un passato illustre schiacciava l'Italia e un avvenire infinitamente glorioso ribolliva nel suo seno, appunto in Italia, sotto il nostro cielo troppo voluttuoso, l'energia futurista doveva nascere, dieci anni fa, organizzarsi, canalizzarsi, trovare in noi i suoi motori, i suoi apparecchi di illuminazione e di propagazione. L'Italia, più di qualunque altro paese, aveva un bisogno urgente di futurismo, poichè moriva di passatismo. L'ammalato inventò il proprio rimedio. Noi siamo i suoi medici occasionali. Il rimedio vale per gli ammalati di ogni paese.
