Covering all the features of Excel 2002 and 2003, the most recent versions for Windows, Excel: The Missing Manual is an easy-to-read, thorough and downright enjoyable guide to one of the world's most popular, (and annoyingly complicated!) computer programs. Never a candidate for "the most user-friendly of Microsoft programs," Excel demands study, practice and dedication to gain even a working knowledge of the basics. Excel 2003 is probably even tougher to use than any previous version of Excel.
