Exercise 2.18 It belongs to the class Student. Exercise 2.19 It has two parameters. One is of type String and the other of type double. Exercise 2.20 It would be reasonable to expect the types to be the same as the two parameters (String and double). Can't really assume anything about the names, but probably something like title and price ...

Open the music-organizer-v1 project in BlueJ and create a MusicOrganizer object. Store the names of a few audio files into it—they are simply strings. As we are not going to play the files at this stage, any file names will do, although there is a sample of audio files in the audio sub-folder of the project that you might like to use.. Check that the number of files returned by numberOfFiles ...
