### **Field Guide**

For amps with  
Fender style

"High and Low"

input jacks the  
Low jack not  
only cuts the  
guitar signal in  
half (-6dB) but  
it also offers  
up a very  
different input  
impedance (136k  
Low vs 1M High)

# Bookmark File

## PDF Fender

which can  
interact with  
the guitar  
pickup coils to  
color the tone.  
Humbucker and  
hot pickups  
often sound  
better in the  
Low jack.
