New York Times bestselling author and geopolitical forecaster George Friedman delivers a fascinating portrait of modern-day Europe, with special focus on significant political, cultural, and geographical flashpoints where the conflicts of the past are smoldering once again.

Flashpoints: The Emerging Crisis in Europe  
George Friedman forecasted coming global trends in The Next 100 Years and The Next Decade. Now, in Flashpoints, he zooms in on Europe and examines the dry tinder of the region: culture. Walking the faultlines that have existed here for centuries, Friedman inspects all the dormant social and political fissures still smouldering just beneath the continent ' s surface, and identifies those likely to erupt first.
