Chapter 40 - Fluid, Electrolyte, and Acid-Base Balance . . .

Acid-base balance Acids are electrolytes that release hydrogen ions (H^+) when they are dissolved in water.

Bases are electrolytes are

Access Free Fluids Electrolytes Acid Base

release hydroxide ions (OH^-) when they are dissolved in water. Acid-base balance is primarily regulated by the concentration of H^+ (or the pH level) in body fluids, especially ECF.

Access Free Fluids Electrolytes Acid Base

Fluid, Electrolyte, and Acid-Base Balance

All of the ions in plasma contribute to the osmotic balance that controls the movement of water between cells and their environment. Electrolytes in living
