organizational structure of the new Physics guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by a highly experienced IB author, Chris Hamper, you can be confident that you and your students have all the resources you will need for the new Physics curriculum. Features: Nature of Science and TOK boxes throughout the text ensure an embedding of these core considerations and promote concept-based learning. Applications of the subject through everyday examples are described in utilization boxes, as well as brief descriptions of related industries, to help highlight the relevance and context of what is being learned. Differentiation is offered in the Challenge Yourself exercises and activities, along with guidance and support for laboratory work on the page and online. Exam-style assessment opportunities are provided from real past papers, along with hints for success in the exams, and guidance on avoiding common pitfalls. Clear links are made to the Learner profile and the IB core values.

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This Exam Preparation Guide contains up-to-date material matching the 2016 IB Diploma syllabus and offers support for students as they prepare for their IB Diploma Physics exams. The book is packed

approach to learning. This bestselling textbook contains all SL and HL content, which is clearly identified throughout. Options are available free online, along with appendices and data and statistics. - Improve exam performance, with exam-style questions, including from past papers - Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study - Stretch more able students with extension activities - The shift to concept-based approach to learning, Nature of Science, is covered by providing a framework for the course with points for discussion - Key skills and experiments included - Full digital package - offered in a variety of formats so that you can deliver the course just how you like!

Developed for the 2007 course outline. This study guide for the IB Diploma Physics exam was expertly written by a chief examiner and covers all the Core and Optional materials at both Standard and Higher level. Highly illustrated, this guide contains clear, concise review of processes, terms and concepts, with practice exercises modeled on exam question types. This guide is perfect as both a study aide for coursework and as a review guide for the IB examination.

A best-seller now available in full colour, covering the entire IB syllabus.

Physics for use with the IB Diploma Programme, written by Michael J. Dickinson is a complete and concise learning resource for both students and teachers alike. Written in plain English with an international audience in mind – many of whom are known to be second language English learners – it follows the IB Physics syllabus (for first examinations in 2009) in a linear and sequential manner. This textbook contains:

- All eight of the Standard Level (core) topics. IB topics 1 – 8.
- All six of the Additional Higher Level (AHL) topics. IB topics 9 – 14.
- Selected Standard Level Options. Options A to C.
- Selected Higher Level Options. Options G and H.
- Identification of syllabus statements, formulae, definitions and problems to enable easy navigation.
- Detailed illustrations to support the detailed explanations of each concept.
- Numerous problems (including worked solutions), many of which have been taken from past IB examination papers.
- All laws and definitions that are needed for the IB Physics syllabus, summarized at the end of the book.
- All formulae, constants, multipliers and symbols that are needed for the IB Physics syllabus, summarized at the beginning of the book.
