Leed For Operations Maintenance Reference Guide Introduction

LEED Building Operations And Maintenance (LEED O+M) Rating Systems In Details. The greenest building is the one already built. It can take up to eighty years to make up for the environmental impacts of demolishing an old building and constructing a new one, even if the newly constructed building is environmentally friendly. The LEED O+M rating systems apply to existing buildings that are undergoing improvement work or little to no construction.

LEED Building Operations And Maintenance (LEED O+M) Rating ...

The intent of LEED for Existing Buildings: Operations & Maintenance is to certify the operations and maintenance of the building and create a plan for ensuring high performance over time. The rating system captures both a building ' s physical systems (equipment, design, land use, etc.) and the way the building is occupied and operated by its managers (waste management, temperature monitoring, commuting programs, etc.). A key goal of LEED for Existing Buildings: Operations & Maintenance is ...
