Patrol Field Problems and Solutions was developed as an operational manual for law enforcement officers working in the field. Because policies and regulations are always changing in police agencies, this guide offers timely solutions to problems and situations commonly encountered in the field. Criminal acts with which law enforcement officers must deal range from that of a serial killer or rapist to petty theft and vandalism by juveniles. This book offers case examples together with solutions to promote the best possible action by police. Topics include domestic violence situations, traffic violations, federal offenses, child abuse, sex offenses, hate and bias crimes, and substance abuse as it relates to criminal activity. There are guidelines for search and seizure procedures, dealing with mentally impaired individuals, working with youthful offenders, and protocol for finding wanted and missing persons. Crime scene investigation is explained as well as working in cooperation with other agencies. This book can be used as a training manual for new recruits and as a method for evaluating performance of officers already working in the field.

Federal complaint-handling, ombudsman, and advocacy offices have different forms, capacities, and designations. This report identifies the basic characteristics of these offices, recognizing differences among them with regard to their powers, duties, jurisdictions, locations, and resources, as well as control over them. The report consists of three parts: (1) an analysis of the ombudsman concept and a brief look at which countries around the world have used ombudsmen; (2) a breakdown of the various ways in which federal complaint-handling offices differ; and (3) an identification and description of selected ombudsman-like offices, including specifics on their origins and operations. This is a print on demand edition of an important, hard-to-find report.

It is very common for young people to have educational loans in order to obtain certification or degrees. This guidebook investigates student loans, how increasing loan debt has gotten out of hand, and what students should do about it. Government and private loans, repayment solutions, and the economic impact of the student loan bubble are discussed.
