The Third Edition of ANSI/ACCA Manual D is the Air Conditioning Contractorsof America procedure for sizing residential duct systems. This procedureuses Manual J (ANSI/ACCA, Eighth Edition) heating and cooling loads todetermine space air delivery requirements. This procedure matches duct system resistance (pressure drop) to blower performance (as defined by manufacture's blower performance tables). This assures that appropriate airflow is delivered toall rooms and spaces; and that system airflow is compatible with the operatingrange of primary equipment. The capabilities and sensitivities of this procedureare compatible with single-zone systems, and multi-zone (air zoned) systems. The primary equipment can have a multi-speed blower (PSC motor), or avariable-speed blower (ECM or constant torque motor,

Download Ebook Manual Split Air Condition

or a true variable speed motor).Edition Three, Version 2.50 of Manual D (D3) specifically identifiesnormative requirements, and specifically identifies related informative material.

GRIHA the national rating system of India is an evaluation tool for measuring and rating abuilding's environmental performance. This set of 5 GRIHA manuals have been developed asa guide for building professionals (architects, services engineers, landscape designers, projectmanagers, contractors, etc.) who are involved in the design and construction of green buildings,to provide them a comprehensive understanding of the GRIHA rating system. The informationprovided in these manuals will serve as a complete guide for individuals who are interested inknowing about this rating system, its underlying criteria, rating process, strategies that shouldbe adopted for complying with all the criteria and the documentation preparation and evaluationprocedure.
