idea is that by combining two or more

distinct materials one can engineer a

new material with the desired

combination of properties (e.g., light,

strong, corrosion resistant). The idea

that a better combination of

properties can be achieved is called

Studies reveal that why many students fail in AMIE examination is due to that lack of right guidance and coaching materials. Compared to regular engineering students in professional colleges, AMIE students do not get access to good professors, laboratory facilities, regular attendances etc. All these factors may affect AMIE result.
