PLEASE NOTE - this is a replica of the print book and you will need paper and a pencil to complete the exercises. Love it or hate it, math is an essential subject to know. Now you can master it with this colorful practice ebook. Do you feel a bit left behind in math class? Or are you a math genius and want to practice more at home? This workbook will help cement everything you need to know about math through practice questions and practical exercises. Easy-to-follow instructions allow you to try out what you've studied, helping you understand what you've learned in school or giving extra study practice before that important test. Aimed at children aged 7-11 (Grades 2 and up), the ebook covers all the key areas of the school curriculum, including fractions, percentages, multiplication, measurement, geometry, coordinates, data handling, graphs, and equations. And there are answers at the back to check that you're on the right path. This workbook accompanies the How to Be Good at Math coursebook, but can also be used on its own.
