"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most

original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, *The Lonely City* is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

Heat pumps and related technology are in widespread use in industrial processes and installations. This book presents a unified, comprehensive and systematic treatment of the design and operation of both compression and sorption heat pumps. Heat pump thermodynamics, the choice of working

fluid and the characteristics of low temperature heat sources and their application to heat pumps are covered in detail. Economic aspects are discussed and the extensive use of the exergy concept in evaluating performance of heat pumps is a unique feature of the book. The thermodynamic and chemical properties of certain new working fluids and sorbents are also explored. There are considerable pressures on those involved in the use of heat pumps to achieve energy savings and this presents a challenging task in today's industrial climate. This book provides many examples of such energy savings such as the use of large heat pump units utilising various low temperature industrial waste heat sources. Heat Pumps is illustrated throughout by specific solutions as applied worldwide. The subject area is

and applications are used everyday by a substantial population in developed and developing countries. Apparently most of the users are not aware of the types and the concepts of these systems. Perhaps many of them feel that there is no need to understand the concepts and applications. However, students/ Technicians and others who would like to learn and deal with the systems need an introductory level book, that would initiate them into this field. This book is planned to include fundamental concepts of HVAC systems and hopefully meet the expectations of students aspiring to learn in general about these systems.

At the turn of the twentieth century, exotic dancer Mata Hari lived and loved by her own rules. \*\*\* My Name is Mata Hari

tells the story of the infamous dancer and courtesan who began as Margaretha Geertruida Zelle, a young Dutch woman who married the older Rudolph MacLeod, a military officer, and traveled with him to the Dutch East Indies. Claiming her mother's Javanese ancestry, she changed her name to Mata Hari, Malay for "eye of the day." Mata Hari danced on stages across Europe and the Middle East, and took many high-ranking military and government officials as her lovers. At the end of a tumultuous life, convicted for espionage during the First World War yet sustained by her pride, she said, "I am a genuine courtesan. And I am a dancer in the true sense." \*\*\* Remy Sylado is the pen name of noted Indonesian novelist, poet, playwright, and musician, Yapi Tambayong.
