The father of fiber optics, Narinder Singh Kapany was far more than your typical multi-hyphenate. Inventor, art collector, sculptor, farmer, entrepreneur, teacher, and a successful businessman, Dr Kapany was what Fortune magazine in its 1999 issue called, 'one of the seven unsung heroes of the 20th century'. An insightful and inspirational life story, this memoir chronicles his 90 remarkable years. Charming, idiosyncratic, and highly engaging, *The Man who Bent Light* serves up enough variety and verve to celebrate the lives of a half-dozen individuals. But there is only one Narinder Singh Kapany, and his life, illuminated in his singular memoir, is a life like no other.

A discussion with a friend soon turned into a matter of self-assessment, leading to this discourse on why Bhagat Singh chose to be an atheist. Even in the face of death at a very young age, with uncanny observations and sharp questions, he forces us to re-think our foundations to faith in god.

investments do well, but investors don't do well. What could be the reasons behind this? What goes on in an investor's mind? What makes a stock market bubble? How does it burst? How does one find the right strategy of investing? Intrigued by these pertinent questions, Parag Parikh, a seasoned broker and expert, took up this daunting task of understanding and demystifying investing in the stock market. *Stocks to Riches* is a distillate of his experience. It simplifies investing in stocks and provides key perspectives for a lay investor venturing into the market. At the end of the day, *Stocks to Riches* helps the retail investor make money by following the time-tested and proven guidelines provided in the book. What does *Doing the Impossible* really mean? This book is for those who have a desire to achieve greatness and are ready to take the steps to turn that desire into a reality. At one point or another in this book, you will experience several different reactions - excitement, curiosity, joy, laughter, or even tears - but the ultimate goal is to encourage and challenge you to make a decision to do the impossible. That may have a totally different meaning to you than it did to Steve Jobs, Thomas Edison, or any of the other role models we will look at; but whatever *Doing the Impossible* means to you, the goal of this book is to help you realize that you have the capacity to do what the critics think is impossible. - Patrick Bet-David, Introduction to *Doing the Impossible*. *Doing the Impossible* is a roadmap for those who want to do something big with their lives. The book goes over 25 steps that the reader should

take to re-create themselves, identify their cause, and make history. Patrick Bet-David shares his own impossible crusade and gives key principles for anyone looking to do the same.

Born in 1915 in pre-Partition Punjab, Khushwant Singh, perhaps India ' s most widely read and controversial writer has been witness to most of the major events in modern Indian history from Independence and Partition to the Emergency and Operation Blue Star and has known many of the figures who have shaped it. With clarity and candour, he writes of leaders like Jawaharlal Nehru and Indira Gandhi, the terrorist Jarnail Singh Bhindranwale, the talented and scandalous painter Amrita Shergil, and everyday people who became butchers during Partition. Writing of his own life, too, Khushwant Singh remains unflinchingly forthright. He records his professional triumphs and failures as a lawyer, journalist, writer and Member of Parliament; the comforts and disappointments in his marriage of over sixty years; his first, awkward sexual encounter; his phobia of ghosts and his fascination with death; the friends who betrayed him, and also those whom he failed.

The history of the compilation of the Adi Granth - the Sikh "cannon" - has long been the subject of speculation and debate. In Mann's comprehensive account, he presents findings that challenge traditional and contemporary hypotheses and raises some entirely fresh questions.
