for his older sister's best friend.

By Natalia Winkelman Hong ...

Why does philosophy give some people a headache, others a real buzz, and yet others a feeling that it is subversive and dangerous?

Why do a lot of people think philosophy is totally irrelevant?

What is philosophy anyway? The ABCs of philosophy - easy to understand but never simplistic.

Beginning with basic questions posed by the ancient Greeks -

What is the world made of? What is a man? What is knowledge?

What is good and evil? -

Philosophy For Beginners traces the development of these questions as the key to

Informative guide to the origins and development of film theory will be an indispensable tool for all students. It describes and contextualises the origins and development of film theory in the 20th century, and discusses all of the major movements and ideas. From the Lumiere brothers through to Tarantino and the postmodern movement, all of the major aspects of film will be analysed. Film theory will be distinguished from film criticism and all of the important theoretical movements that have influenced thinking about film will be explained.

What is sociology? Simply it is the study of how society functions (or not). Osborne, a lecturer in

Richard Osborne's *Philosophy at London's Guildhall University*, traces the origins of these differing conceptual systems, from Enlightenment thought and the pioneering work of Auguste Comte, to subsequent developments in Karl Marx, Spencer, Durkheim and Max Webber.

Richard Osborne has done something very special here. He takes us on an exciting journey into the knowledge required to exist, survive, thrive, in the new millennium, in an interconnected global space that includes cyberpunk and cyborg, chaos theory and conspiracy theories, the postcolonial and the diaspora, hybridity and whiteness, the postmodern and the post-

feminist, the digital and the Net, as much as older yet still influential terms like Enlightenment, empiricism, positivism, aesthetics, agency, nationhood and citizenship. Osborne writes with wit, wisdom, and insight, always wary of any approach becoming an orthodoxy. He shows how particular concepts arise at particular times with particular authors and intellectual personalities. The entries proceed by illuminating examples, engaging anecdotes, subtle cross-referencing, wide historical contexts' - John Docker, author of Postmodernism and Popular Culture: A Cultural History Written by the author of the international bestseller Philosophy for Beginners, Megawords provides
