Rice crop protection guide 2017–18 - IREC

Crop damage can occur if rice drainage water treated with Magister® is used on sensitive crops. New identification photos for pests and weeds have been included in this year's guide. Do not rely solely on Group A herbicides such as Barnstorm™ and Aura® as they are a high risk for herbicide resistance development. These herbicides should only be used as a secondary control measure after using one of the recommended programs where other modes of action have been used.
