Writers have long been attracted to boxing. Hemingway, Mailer, Algren, Plimpton, Oates, and many others have stepped into the ring?at least in spirit?to give voice to an otherwise wordless sport, to celebrate that 'sweet science,' and to bear witness to its romance and tragedy. In this acclaimed book, hailed by Norman Mailer as an 'impressive event,' we are brought for the first time into the ring for a close-up look at the 'manly art' through the eyes of Josä Torres, a man who was a great boxer himself. When former light-heavyweight world champion Torres traded in his gloves for a typewriter, boxing finally found its eyewitness. In the classic Sting Like a Bee, Torres turns his well-trained eye on one of the most celebrated and controversial athletes of all time: Muhammad Ali. In this penetrating view of Ali and the world of prizefighting, told by a true insider and 'boxing's Renaissance man,' Torres delivers exciting and explicit accounts of all of Ali's major fights with the cool authenticity of one who has lived it.

The very best short stories and novellas from National Public Radio's Alan Cheuse are brought together in a quintessential collection. Countless listeners depend on the book reviews from Cheuse, America's "voice of books," and many of those listeners also follow his own critically acclaimed fiction and nonfiction. The title story—a flash fiction piece that acts as both prologue and an intriguing look at a writer's inspiration—takes us through a child's eyes into a fantastic land, one that informs, shapes, and travels along with the other stories in this stunning collection. These stories deal with life, death, love, family, work, and a deep exploration of the soul.

A Washington Post Notable Work of Nonfiction The image of a scorpion surrounded by a ring of fire, stinging itself to death, was widespread among antislavery leaders before the Civil War. It captures their long-standing strategy for peaceful abolition: they would surround the slave states with a cordon of freedom, constricting slavery and inducing the social crisis in which the peculiar institution would die. The image opens a fresh perspective on antislavery and the coming of the Civil War, brilliantly explored here by one of our greatest historians of the period.

In The War of the Ring Christopher Tolkien takes up the story of the writing of The Lord of the Rings with the Battle of Helm's Deep and the drowning of Isengard by the Ents. This is followed by an account of how Frodo, Sam and Gollum were finally brought to the Pass of Kirith Ungol, at which point J.R.R. Tolkien wrote at the time: 'I have got the hero into such a fix that not even an author will be able to extricate him without labour and difficulty'. Then comes the war in Gondor, and the book ends with the parley between Gandalf and the ambassador of the Dark Lord before the Black Gate of Mordor. In describing his intentions for The Return of the King J.R.R. Tolkien said that 'It will probably work out very differently from this plan when it really gets written, as the thing seems to write itself once it gets going'; and in The War of the Ring totally unforeseen developments that would become central to the narrative are seen at the moment of their emergence: the palantir bursting into fragments on the stairs of Orthanc, its nature as unknown to the author as to those who saw it fall, or the entry of Faramir into the story ('I am sure I did not invent him, though I like him, but there he came walking into the woods of Ithilien'). The book is illustrated with plans and drawings of the changing conceptions of Orthanc, Dunharrow, Minas Tirith and the tunnels of Shelob's Lair.

WrestleCrap: The Very Worst of Professional Wrestling examines some of the ridiculously horrible characters and storylines that pro wrestling promoters have subjected their fans to over the past twenty years. Why would any sane person think that having two grown men fight over a turkey was actually a reasonable idea? Was George Ringo, the Wrestling Beetle, really the best gimmick that a major promotional organization could come up with? And who would charge fans to watch a wrestler named the Gobbeldy Gooker emerge from an egg? In an attempt to answer such questions and figure out just what the promoters were thinking, authors Randy Baer and R.D. Reynolds go beyond what wrestling fans saw on the screen and delve into the mindset of those in the production booth. In some instances, the motivations driving the spectacle prove even more laughable than what was actually seen in the ring. Covering such entertainment catastrophes as an evil one-eyed midget and a wrestler from the mystical land of Oz, not to mention the utterly comprehensible Turkey-on-a-Pole match (a gimmick which AWA fans might recall), *WrestleCrap* is hysterically merciless in its evaluation of such organizations as the WCW and the WWF. This retrospective look at the wrestling world's misguided attempts to attract viewers will leave wrestling fans and critics alike in stitches.
