Student Feedback System for college students have been developed which aims to rate and analyse the college faculty's performance. This type of Student Feedback system reduces, the strenuous work of physically examining the feedback pages of each and every student. The system also reduces the burden of efforts and burden of keeping and maintaining the records on a manual base, it requires a lot of space and safety to keep up such records.

Student feedback system - PHPTPOINT

A student response system (SRS) allows instructors to gather real-time feedback during lectures through digital polls and questionnaires. SRSs can be used for attendance, discussions and evaluating course content. Examples of SRSs include iClicker and Top Hat. Some SRSs are free while others require a subscription or licensing fee.
