The problem here is that "The Road to Mars" wants to be three things: a comic sci-fi novel, a story-within-a-story and a dissertation on comedy. The blend doesn't work. As a comic sci-fi novel, it clearly wants to follow in the footsteps of the first couple of "Hitchhiker's" books by Douglas Adams.

~~Road to Mars (2017) — IMDb~~

Roads on Mars and the Moon won't need to be built the same way that they are on Earth because gravity on those bodies is so much less. Intuitively, the shear load when braking on a road is much smaller for a Mini Cooper compared to a fully loaded 18 wheel truck. The larger truck is pressing down on the road much harder than the small car, so the shear loads it exerts on the concrete or asphalt are much higher.
