What is Islam? How do we grasp a human and historical phenomenon characterized by such variety and contradiction? What is "Islamic" about Islamic philosophy or Islamic art? Should we speak of Islam or of islams? Should we distinguish the Islamic (the religious) from the Islamicate (the cultural)? Or should we abandon "Islamic" altogether as an analytical term? In What Is Islam?, Shahab Ahmed presents a bold new conceptualization of Islam that challenges dominant understandings grounded in the categories of "religion" and "culture" or those that privilege law and scripture. He argues that these modes of thinking obstruct us from understanding Islam, distorting it, diminishing it, and rendering it incoherent. What Is Islam? formulates a new conceptual language for analyzing Islam. It presents a new paradigm of how Muslims have historically understood divine revelation—one that enables us to understand how and why Muslims through history have embraced values such as exploration, ambiguity, aestheticization, polyvalence, and relativism, as well as practices such as figural art, music, and even wine drinking as Islamic. It also puts forward a new understanding of the historical constitution of Islamic law and its relationship to philosophical ethics and political theory. A book that is certain to provoke debate and significantly alter our understanding of Islam, What Is Islam? reveals how Muslims have historically conceived of and lived with Islam as norms and truths that are at once contradictory yet coherent.

“Ed Husain has become one of the most vital Muslim voices in the world. The House of Islam could very well be his magnum opus.” -Reza Aslan, #1 New York Times bestselling author of Zealot “This should be compulsory reading.” -Peter Frankopan, author of the international bestseller The Silk Roads Today, Islam is to many in the West an alien force, with Muslims held in suspicion. Failure to grasp the inner workings of religion and geopolitics has haunted American foreign policy for decades and has been decisive in the new administration's controversial orders. The intricacies and shadings must be understood by the West not only to build a stronger, more harmonious relationship between the two cultures, but also for greater accuracy in predictions as to how current crises, such as the growth of ISIS, will develop and from where the next might emerge. The House of Islam addresses key questions and points of disconnection. What are the roots of the conflict between Sunni and Shi'a Muslims that is engulfing Pakistan and the Middle East? Does the Koran encourage the killing of infidels? The book thoughtfully explores the events and issues that have come from and contributed to the broadening gulf between Islam and the West, from the United States' overthrow of Iran's first democratically elected leader to the emergence of ISIS, from the declaration of a fatwa on Salman Rushdie to the attack on the offices of Charlie Hebdo. Authoritative and engaging, Ed Husain leads us clearly and carefully through the nuances of Islam and its people, taking us back to basics to contend that the Muslim world need not be a stranger to the West, nor our enemy, but our peaceable allies.

Appreciate a rich and diverse culture. Understand real people in their everyday lives. The need to understand Islam and Muslims has never been greater, both because of conflicts that dominate the news and because of the increasing presence of Muslims in Western societies. There are hundreds of books that introduce the Western reader to Islam, and dozens of books that explore various Muslim societies (usually Arab ones). Islam & Muslims is the first to bring together both, explaining Islam in theory and in practice across the diverse Muslim world. Readers learn not just what Islam says about everything from the nature of God to marriage to prayer to politics, but also how individual Muslims (traditional or modern, devout or barely observant) apply teachings in everyday life.
