"We cannot change the cards we are dealt, just how we play the hand."--Randy Pausch A lot of professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave--"Really Achieving Your Childhood Dreams"--wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you have...and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

What is consent? Why does it matter? How does it affect our daily lives? Why is it such a grey area, sometimes? The concept of consent is easy to oversimplify - yes means yes, and no means no. Often, though, it isn't that black and white. Have you ever said 'yes' to something when, really, you wanted to say 'no'? Or have you ever tried to convince someone to do something they don't want to? What is Consent? explores how consent works, and why it matters. It explains how consent plays a part in almost every interaction or relationship we have, and how it affects almost every area of life, from healthcare to the law. The book encourages children to think about what consent means to them, and about the importance of personal boundaries - both knowing your own, and respecting other people's. It talks about how to say no, and what to do if you feel your consent has been violated. The book also includes contributions from people such as Davit Bartlett, chief executive of the White Ribbon campaign, and Zara Todd, a youth worker and activist, about what consent means to them. Broad and far-reaching, and simultaneously gentle and accessible, this is an important book, vital for giving young readers the necessary understanding to build and develop healthy relationships.
